

Just a quick reminder to all competitors regarding the UFO rules. These events are being run as per the sprint standards and you need to be aware of the relevant rules. There are areas marked on the maps that are out of bounds or forbidden to cross. This information is provided on the map as below.

UNCROSSABLE FEATURES	
Residential/garden	
Out of bounds	
Fence: uncrossable	
Wall: uncrossable	
Body of water	
Building	

Generally, out of bounds areas are set to protect the competitor or to respect property owners and/or the public.

Please be aware of this when you are competing. There were people observed during the first event not adhering to this rule on the leg between control 15 to 16 on short course or 5 to 6 on the long course. The short course leg is shown on the attached image. The long course went in the reverse direction.
